IFRS Condensed Interim Consolidated Information as adopted by the EU for the period ended 30 June 2023

## 2. Basis of preparation and measurement

This condensed interim consolidated financial information for the half-year reporting period ended 30 June 2023 has been prepared in accordance with IAS 34 Interim Financial Reporting as adopted by the EU. The condensed interim consolidated financial statements were approved by the Boards of Directors of Cordia International on 29 September 2023.
The interim report does not include all the notes of the type normally included in an annual financial report. Accordingly, this report is to be read in conjunction with the annual report for the year ended 31 December 2022 and any public announcements made by Cordia International Zrt. during the interim reporting period.

The accounting policies adopted are consistent with those of the previous financial year and the corresponding interim reporting period.

A number of new or amended standards became applicable for the current reporting period:

- IFRS 17 Insurance Contracts effective from 1 January 2023
- Amendments to IAS 1 and IFRS practice Statement 2: Disclosure of Accounting Policies effective from 1 January 2023
- Amendments to IAS 8: Definition of Accounting Estimates effective from 1 January 2023
- Amendments to IAS 12: Deferred Tax related to Assets and Liabilities arising from a Single Transaction
- Amendments to IAS 12: International tax reform - pillar two model rules

The above amendments and improvements to IFRSs do not have a material impact on the condensed consolidated financial statements of the Group.

Certain new accounting standards and interpretations have been published that are not mandatory for 30 June and 31 December 2023 reporting periods and have not been early adopted by the Group. The adoption of new accounting standards is in progress with Accounting policies being up-dated (where relevant).

- Amendments to IAS 1 - 'Classification of Liabilities as Current or Non-current'

The amendments originally were effective for annual reporting periods starting on 1 January 2022, but their effective date was delayed to 1 January 2024. This amendment to IAS 1 clarifies that the classification of liabilities as current or non-current is based solely on a company's right to defer settlement at the reporting date. Such right needs to exist at the reporting date and must have substance. The amendments also clarify that the transfer of a company's own equity instruments is regarded as settlement of a liability unless it results from the exercise of a conversion option meeting the definition of an equity instrument.

- Amendments to IFRS 16: Lease liability in sale and leaseback

Effective from 1 January 2024. The amendments specify that, in measuring the lease liability subsequent to the sale and leaseback, the seller-lessee determines 'lease payments' and 'revised lease payments' in a way that does not result in the seller-lessee recognising any amount of the gain or loss that relates to the right of use that it retains. This could particularly impact sale and leaseback transactions where the lease payments include variable payments that do not depend on an index or a rate.

- Amendments to IFRS 10 and IAS 28: Sale or contribution of assets between an investor and its associate or joint venture

The IASB has made limited scope amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures. The amendments clarify the accounting treatment for sales or contribution of assets between an investor and their associates or joint ventures. They confirm that the accounting treatment depends on whether the non-monetary assets sold or contributed to an associate or joint venture constitute a 'business' (as defined in IFRS 3 Business Combinations).

Where the non-monetary assets constitute a business, the investor will recognise the full gain or loss on the sale or contribution of assets. If the assets do not meet the definition of a business, the gain or loss is recognised by the investor only to the extent of the other investor's interests in the associate or joint venture. The amendments apply prospectively.

- Amendments to IAS 7 and IFRS 7 on Supplier finance arrangements

These amendments are effective from 1 January 2024 with transitional reliefs in the first year. They require specific disclosures about supplier finance arrangements (SFAs). The amendments respond to investors that said they urgently need more information about SFAs to be able to assess how these arrangements affect an entity's liabilities, cash flows and liquidity risk.

- IFRS S1 'General requirements for disclosure of sustainability-related financial information’

Effective from 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This standard includes the core framework for the disclosure of material information about sustainability-related risks and opportunities across the entity's value chain.

- IFRS S2 'Climate-related disclosures'

Effective from 1 January 2024. This is subject to endorsement of the standards by local jurisdictions. This is the first thematic standard issued that sets out requirements for entities to disclose information about climate-related risks and opportunities.

## 3. Group composition

(a) Change in group structure

In comparison to 31 December 2022 there were the following changes in the group structure.

## Newly established entities

| Entity name | Place of operation | Voting rights | Nature of relationship |
| :--- | :---: | :---: | :---: |
| Wilanów Ulice Operator PL sp. z o.o. | Poland | $100 \%$ | Subsidiary |
| Wilanów SOWD Operator PL sp. z o.o. | Poland | $100 \%$ | Subsidiary |
| Sold entities |  |  |  |
| Entity name | Place of operation | Voting rights | Nature of relationship |
| Cordia Project Holdings Limited | United Kingdom | $100 \%$ | Subsidiary |

The Group also sold its major interest in Finext Global 1. Ingatlanforgalmazó Részalap, which became an associate. The remaining interest is $27.66 \%$.

Due to the fact that on 14 of April 2023 District Court for the City of Warsaw, Commercial Division declared a bankruptcy of Warszawa-Ząbki Neptun PL Sp. z o.o., the Group has no longer control over Warszawa-Ząbki Neptun PL Sp. z o.o.

Warszawa-Ząbki Neptun PL Sp. zo.o. was the subsidiary of Polnord S.A. and was consolidated by Cordia Group together with Polnord S.A. in 2020. Since 2019 Warszawa-Ząbki Neptun PL Sp. z o.o has not engaged in any significant development activities.

| Total revenue | $\mathbf{2 8 , 4 3 6 , 2 8 1}$ | $\mathbf{3 8 , 4 8 7 , 0 4 5}$ |

Revenue from sales of real estate is recognized at a point in time and consists of sale of residential units, parking lots, storage and land plots which were previously classified as inventory. Rental revenue from investment properties are recognized as revenue from sale of real estate and rental income. The IFRS 16 rental revenue was 96 million HUF in 2023 and 123 million in 2022. Other revenue includes revenues from administrative service charges. Revenues from service and rental charges under IFRS 16 are recognized over time, other fees are recorded at a point in time.

During the first half of 2023, the Group finished two development projects in Hungary, two project in Poland and one in Romania. Handovers of apartments to its customers have started in 4 projects in the 1st half, while in 1 project after that.

## 10. Finance income and expense

Interest income is the interest received from banks on cash balance and on short-term deposits and yield of treasury bills.
ARGO Properties N.V. issued an option warrant letter to the Group prior to the initial public offering (IPO). The Group has been granted options to acquire 500,000 ARGO shares. The exercise period begins after 4 years of the trade date of shares on TASE, 11 May 2021 and the option is exercisable within a three months period. Exercise price shall be nominal price in the amount equal to $25 \%$ above the share price in the issuance under Argo's IPO Prospectus ( $70.09 \mathrm{NIS} /$ share).
The option warrant is presented at fair value on the reporting date. The fair value was measured with the Black-Scholes model. Due to the changes of the share price on the stock exchange market the group has unrealized fair valuation loss on the option in the amount of THUF 496,562.

The fair valuation gain on derivative assets is coming from a forward exchange rate agreement with the bank.
The Group held $50.78 \%$ of the investment units in FINEXT Pure Alpha Absolute Return Fund of Funds Sub-Fund in 2022. Although the Group held more than $50 \%$ of the units it had neither control nor significant influence above the sub-fund based on the criteria in IFRS 10 and IAS 28. The Group sold its shares by the end of June 2023.

Interest expense includes the finance expenses that are not capitalized - directly or indirectly - to the inventories which are typically interest on project loans occurring after the related project has been finalized. This line also contains interest related to IFSR 16 leasing liabilities.
Cost of bank financing if it relates to securing the needs of the asset under development (work in progress) are typically capitalized (directly) to the particular asset.

A portion of the bond interest expense is indirectly capitalized to the inventories, as the funds raised by the Company via the bonds issues are used - among other needs - for financing of property acquisitions and their preparations and development. The capitalization is calculated in line with IAS 23 Borrowing costs. The uncapitalized amount is presented on this line. Please refer to Note 26 for more detailed information on bonds.

## 11. Investment properties

Based on IAS 40 the Investment property is real estate (land, building or part of a building or both) owned or leased, treated as a source of income from rents or held for capital appreciation or both.

At the moment of initial recognition, investment properties are measured at the purchase price or production cost, taking into account the costs of the transaction. After the initial recognition of the property, based on the accounting policy chosen by the Group it uses the fair value model and measures all investment properties at fair value, except when the entity is unable to reliably and regularly measure the fair value of the investment property.

The valuation of investment properties are usually carried out once a year as at the balance sheet date, primarily on the basis of reports prepared by independent appraisers who have appropriate experience and qualifications in the field of valuation of this type of property. Information presented by experts - assumptions and model adopted for the valuation - are reviewed by the Board of Directors. This analysis includes a review of changes in fair value from the previous measurement.

In accordance with the IFRS 13 standard, all resulting fair value estimates for investment and development properties are included as level 3 inputs of the fair value hierarchy.

## Argo Properties N.V.

ARGO Properties N.V. completed an initial public offering (IPO) on 11 May 2021 raising EUR 54 m from investors at a premoney valuation of EUR 270 m . Cordia invested further EUR 3 million in ARGO during the IPO. The ownership percentage diluted due to the IPO, therefore the Group's share decreased compared to the $18 \%$ interest in ARGO at 31.12.2020. The current portion of shares is $16.57 \%$.
The Group is considered to maintain a significant influence in Argo due to its right to delegate a member to the board of Argo and despite the fractured ownership structure of the entity, Cordia is still considered to be one of the largest shareholders. The investment was tested for impairment in accordance with IAS 36. The recoverable amount of ARGO was determined by its value in use, which is higher than the carrying amount in the balance, therefore no impairment was needed.

The Stacja Kazimierz project is carried out jointly with Grupa Holdingowa Waryński S.A. Throughout Polnord S.A. Cordia Group holds 50\% directly in Stacja Kazimierz I Sp. z o.o., Stacja Kazimierz II Sp. z o.o. and Kazimierz Station III Sp. z o.o. Sp. k. The decrease in investments was the withdrawal of shares. The other owner also withdrew its shares, therefore there was no change in the interest of shares. During the reporting period 19 residental units were handed over in the sales value of HUF 1,257 million in Stacja Kazimierz.

| Total inventories at the lower of cost or net realizable value | $167,488,142$ | $162,569,447$ |

Inventories are valued at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. The Group examined a possible write-down on inventory for each project separately, according to the projection of revenues net of cost of sales. The inventory value is also supported by valuation reports prepared by independent property valuation experts.
The Group did not have to recognize a significant write-down on its inventory. The closing balance written down is THUF 119,882 and THUF 166,442 at the year end of 2022. Based on the current market tendencies there is no indication of impairment triggering events. There is a significant buffer between the cost of inventory and its fair value, which information is also presented within the adjusted total assets in Note 31 at the bottom of the assets as of 30.06.2023 and 31.12.2022.

For information about future commitments to the general contractor for construction services related to inventory construction, see Note 30.
Inventory is pledged and used to secure bank loans.

## 15. Financial assets and financial liabilities

This note provides information about the group's financial instruments, including:

- valuation method of financial assets and liabilities
- an overview of all financial instruments held by the group
- specific information about each type of financial instrument.

## Fair Value estimation of financial assets and financial liabilities

The remaining part of the investments acquired during the first half of 2021 (RAF I) and the investment in FINEXT Pure Alpha Absolute Return Fund of Funds Sub-Fund were valued at fair value through profit and loss. These investments were sold in the first half of 2023.
The other short-term financial assets measured at fair value through profit or loss in the consolidated financial statements contain government bonds.
The other long-term financial assets measured at fair value through profit or loss are other investments, which is not material in either reporting period.
Derivative assets are also measured at fair value through profit and loss. The underlying asset of the derivatives are shares traded on the stock market and forward exchange agreements, therefore Level 1 information is used in the valuation with financial model at the reporting date.

All other financial assets and liabilities are measured at amortized cost. Furthermore, there are no non-financial assets or liabilities that are measured at fair value.
The fair value of the financial assets and liabilities measured at amortized cost approximates their carrying value, except bonds as they are loans and receivables either with variable interest rate (e.g. in the case of borrowings) or short-term receivables and liabilities, where the time value of money is not material (e.g. in the case of related party loans). Please see additional information about the fair value of bonds at the financial liabilities tables.

The group holds the following financial instruments:

## Long-term bank deposits

Amounts deposited by the SPVs (Special Purpose Vehicle) mainly as guarantees provided for the infrastructure development requirement for the state. It will be paid back to the SPVs after their obligation is fulfilled.

## Other long-term receivables

Long-term receivables from third parties are mostly claims from litigation in Polnord detailed in Note 12.

## Derivative assets

ARGO Properties N.V. issued an option warrant letter to the Group prior to the initial public offering (IPO) in May 2021. The Group has been granted options to acquire 500,000 ARGO shares. The exercise period begins after 4 years of the trade date of shares on TASE, 18 May 2021 and the option is exercisable within a three-month period as of 18 May 2025 until 18 August 2025. The exercise price shall be nominal price at an amount equal to $25 \%$ above the share price in the issuance under Argo's IPO Prospectus ( 70.09 NIS / share). The option warrant is presented at fair value on the reporting date. The fair value was measured with the Black-Scholes model.

The Parent company entered into foreign exchange agreements with financial institutions. These agreements are measured at fair value through profit or loss and the result on the revaluation included as other financial result in the profit and loss statement.

## Restricted cash

The Restricted Cash relating to the payments that were deposited in escrow accounts by the customers purchasing premises in the projects of the Cordia Group. In the event that certain requirements are met, these payments can be released and used for project financing purposes based on which they will be reclassified to the cash and cash equivalent balance sheet line.

Restricted cash also contains deposits made in non-liquid collateral accounts which serve as guarantees for the subcontractors working on the projects. This money can be retrieved at the end of the project when all subcontractors have been duly paid.

## Other short-term financial assets

The other short-term financial assets measured at amortized cost are treasury bills. As the end of June 2023 the Cordia Group had 4.87bn HUF invested in Hungarian government treasury bills.
At the end of June 2023 the Cordia Group had 9.3bn HUF invested in Hungarian government bonds, which are measured at fair value.
In 2022 the group had passive financial investment in three British entities in which the Group saw substantial growth potential through value appreciation and also gave access to know-how in different business models. The financial investments were sold in December 2022 and in the first half of 2023.

The fair value of financial liabilities is not significantly different than the amortised cost value in the balance, except for the bonds. The Hungarian bonds were issued with a fixed interest rate in 2019 and in 2020, therefore in the current market environment the fair value of the liability arising from bonds is significantly lower than it is presented in the balance sheet.

The fair value of the Polish bonds was determined based on the unadjusted quoted price, Level 1 input from the official GPW Catalyst website. The fair value of these bonds is not significantly different from the amortised cost, because the bonds have variable coupons.
The fair value of the Hungarian bonds was calculated using a financial model based on benchmark data. Based on the rating of the Parent entity the credit spread was calculated from the interest rate of comparable bonds with similar conditions and added to the risk free yield. The fair value was calculated from the face value of the bonds and the estimated yields.

IFRS Condensed Interim Consolidated Information as adopted by the EU for the period ended 30 June 2023

## Classification as trade and other receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Loans and other receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. If the amounts are expected to be collected in one year or less, they are classified as current assets. If not, they are presented as non-current assets. Trade receivables are generally due for settlement within 30 days and therefore are all classified as current. The group's impairment and other accounting policies for trade and other receivables are outlined in different notes respectively.

## Other receivables

These amounts generally arise from transactions outside the usual operating activities of the group. Interest may be charged at commercial rates where the terms of repayment exceed six months. Collateral is not normally obtained. The non-current other receivables are due and payable within three years from the end of the reporting period.

## 18. Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, short-term deposits or other highly liquid short-term financial instruments which are freely available for the Group and customer advances (restricted cash) available for project financing. Cash at bank earns interest at floating rates based on daily bank deposit rates. Short-term deposits have a duration varying between one day and three months depending on the immediate cash requirements of the Group. As at 30 June 2023 they earn interest at the respective short-term deposit rates.

| In thousands of Hungarian Forints (THUF) | $\mathbf{3 0 . 0 6 . 2 0 2 3}$ | $\mathbf{3 1 . 1 2 . 2 0 2 2}$ |
| :--- | ---: | ---: |

| Total cash and cash equivalents | $\mathbf{5 8 , 3 0 8 , 6 3 4}$ | $\mathbf{6 4 , 8 8 8 , 1 8 6}$ |

The restricted cash classified as cash equivalent are related to cash received from customers as advance payments for financing the projects and the cash withdrawn from the project loan facilities. The banks providing loan financing have light restriction over these funds to secure their loan facility, however the approval process to use these funds are considered perfunctory. The cash which is deposited in the accounts with some restrictions applicable can be fully and immediately exploited by the subsidiaries in order to net with the pre-agreed financial liabilities (e.g. bank loans) as well as to finance the relevant costs of the projects co-financed by the customers buying apartments not later than within a few banking days.

The total amount of cash and cash equivalents was denominated in the following currencies:

The carrying amounts of trade and other payables are considered to be the same as their fair values, due to their short-term nature.

## 23. Amount withheld for guarantees

Amounts withheld for guarantees is the contractual amount that the Group withholds from the vendor's final invoice at the time of delivery. The remaining amount serves as security for the Cordia Group's warranty rights. Amounts where the expected payment date follows the balance sheet date by more than 1 year are presented among non-current liabilities. The Group believes, that - since the payment date is generally within 2 years - the impact of discounting would be wholly immaterial, therefore it presents these balances using the contractual amounts.

IFRS Condensed Interim Consolidated Information as adopted by the EU for the period ended 30 June 2023

## 24. Leasing Liabilities

This note provides information on leases where the group is a lessee.
The liabilities from leases are calculated and presented based on IFRS16 Leasing standard, which requires to present the discounted value of expected future cash-flows on this matter. By nature it is related to the Polish rights of perpetual usufruct of land (lease) and Investment properties.

Provision for warranty repairs is recognized in relation to development projects in the subsidiaries of Polnord S.A.
The provision created for legal claims is related to housing associations' claim against Polnord's subsidiaries in projects in various locations in Poland.

The onerous contract provision is for liabilities and litigations in relation to a vacant space in the office building of Polnord's subsidiary.

Polnord's subsidiaries are the parties in litigation with the National Support Centre for Agriculture involvement, related to perpetual usufruct of land in Warsaw's Wilanów District and the connected annual fees for which the Polnord Group has provision as the right of perpetual usufruct of land.

The Group carried out a successful bond issue on 5 November 2019 (Cordia 2026/I). The financial settlement date is 7 November 2019, the maturity is 7 November 2026 with funds raised in the amount of HUF 44.4 billion. The capitalization rate equals to the effective interest rate of the Bonds.

The Group successfully issued a new bond series named "CORDIA2030/I HUF" on 27 July 2020. The issue consisted of 720 Bonds. Each Bond has been issued in Hungarian forint and with a face value of HUF 50,000,000 (fifty million Hungarian forints), making up a Total Face Value issued in the amount of HUF 36,000,000,000 (i.e. thirty-six billion Hungarian forints). The term of the Bonds is a ten-year period commencing on the Issue Date and ending on 27 July 2030.

On 10 December 2020 a tap issuance was performed on the bond series named "CORDIA2030/I HUF" with the same conditions. The tap issuance consisted of 80 Bonds with a total face value of HUF 4,000,000,000 (i.e. four billion Hungarian forints).

On 15 July 2021, the wholly owned subsidiary Cordia Polska Finance z.o.o. ("CPF") succesfully completed its series A Bonds issuance program in the total aggregate nominal value of PLN 68,797,000. The A Series Bonds have a floating interest based on WIBOR6M $+4.25 \%$ margin with the redemption date on 15 July 2024. The Bonds have been traded at ATS Catalyst market organised by Warsaw Stock Exchange under CPF0724 code since 29 July 2021.

## Bond terms and conditions of bond series Cordia Polska 2024/A:

The total aggregate nominal value of the bond is PLN $68,797,000$. Interest is payable semi-anually on the face value of PLN 1,000 per Bond. According to the Terms \& Conditions, A Series Bonds have a floating interest based on WIBOR6M $+4.25 \%$ margin with the redemption date on 15 July 2024.
Relating to the Bond issue, Cordia has undertaken suretyship for a duration until no later than 13 July 2025 and with voluntary submission to enforcement for the payment obligations deriving from the Bonds up to the total amount of PLN 103,195,500.

All bond series share the same Issuer Undertakings, please see details on the next page.

## Valuation of the Bond liability

The fair value of bond liability was determined by reference to the average bid of commercial institutions which is considered as Level 1 information in the fair value hierarchy.
Bonds are initially recognized at fair value, net of transaction costs incurred, then subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of the borrowings using the effective interest method.

## Issuer undertakings:

No Shareholder Distributions and no New Acquisition shall be made in the event that any of the following conditions are not met, calculated on the basis of the most recently published financial statements of the Issuer:
(i) the Consolidated Leverage Ratio does not exceed $65 \%$, and
(ii) the Issuer Net Debt to Equity Ratio does not exceed 1.

## (i) The Consolidated Leverage Ratio (tested on the basis of the Group Consolidated Financial Statements)

Consolidated Leverage Ratio $=($ Net Consolidated Debt) $/($ Total Consolidated Assets net of Cash \& Customer Advances)
Net Consolidated Debt = CD - C - RC
Total Consolidated Assets net of Cash \& Customer Advances = TA - CA - C - RC

CD = Consolidated Debt meaning the third party loans and borrowings of Cordia Group, including bank loans and bonds, plus provisions related to obligations by reason of any guarantee, suretyship or other liability agreement for such obligations of third parties (that are not fully or partially owned by any member(s) of Cordia Group), but not including any debt that is subordinated to the Bonds;
C = Cash and Cash Equivalents;
RC = Restricted Cash meaning
(i) restricted cash deposited by customers purchasing premises in the projects of the Cordia Group, plus
(ii) restricted cash (other than the cash under point (i) above) deposited in order to secure part of the Consolidated Debt;

TA = Total Assets meaning the consolidated total assets of Cordia Group less (i) right to use assets (IFRS 16) and (ii) deferred tax assets;
CA = Customer Advances meaning the total amount of the advances received by the Cordia Group from customers with respect to the sale of assets which have not yet been recognized as revenues.

Bond related Issuer Undertakings were fulfilled both at current reporting date and in previous periods as well.
(ii) The Issuer Net Debt to Equity Ratio (tested on the basis of the Company's Separate Financial Statement)

Issuer Net Debt to Equity Ratio = (Net Issuer Debt) / (Issuer Equity)
Issuer Debt means the loans and borrowings of the Issuer from entities outside of the Cordia Group, including bank loans and bonds, plus provisions related to obligations by reason of any guarantee, suretyship or other liability agreement for such obligations of third parties (that are not fully or partially owned by members of the Cordia Group), but not including any debt that is subordinated to the Bonds.

IFRS Condensed Interim Consolidated Information as adopted by the EU for the period ended 30 June 2023

Subordinated Shareholder Loans means the debt incurred by the Issuer from the Controlling Shareholder or its Related Parties that are fully subordinated to the Bonds.

Issuer Equity means the total equity of the Issuer (as evidenced on the stand-alone financial statements of the Issuer), plus Subordinated Shareholder Loans;

Issuer Net Debt means Issuer Debt (as evidenced on the stand-alone financial statements of the Issuer) less (i) Cash and Cash Equivalents of the Issuer and (ii) Special Restricted Cash;

Special Restricted Cash means the restricted cash securing the Issuer Debt.
Cash and Cash Equivalents means the cash and cash equivalents of the Issuer.
The calculation presented below is based on the IFRS Separate Financial Statements of Cordia International Zrt.

## Other reserves

The effect of the acquisitions accounted for using the predecessor method is recorded in other reserves. Due to legal regulation in Romania some part of the Retained Earnings must be reclassified under Other reserve from the Retained Earnings.

## 28. Non-controlling interests

Movements in non-controlling interests during the year are as follows:

| In thousands of Hungarian Forints (THUF) | $\mathbf{3 0 . 0 6 . 2 0 2 3}$ | $\mathbf{3 1 . 1 2 . 2 0 2 2}$ |

## 29. Net assets attributable to non-controlling investment unit holders

This line represents the investment of the non-controlling investment unit holders in the investment subfund subsidiaries out of which Finext Funds BP SICAV-SIF and Cordia Residential Partners 1. Alapok Alapja Részalap had non-controlling investment unit holders.

Please see below the movements in the balances during the period.

| In thousands of Hungarian Forints (THUF) | $\mathbf{3 0 . 0 6 . 2 0 2 3}$ | $\mathbf{3 1 . 1 2 . 2 0 2 2}$ |

At each period end, the Group calculates the profit distribution to be paid out on finished projects to non-controlling investment unit holders and presents the balance in the statement of financial position among net assets attributable to non-controlling investment unit holders instead of non-controlling interests. The investors are expecting a return on their investment which depends on the performance of some selected projects. Their return is recognized when the SPVs are realizing the accounting profit of the projects. The carrying amount increased due to projects completed under this scheme.

## Finext BP SICAV-SIF

The fund issued two classes of investment notes in the form of shares, Class $C$ is held by the Group, Class $P$ was purchased by the non-controlling investors. The two share classes provided different rights and they have different risk profiles.
The non-controlling investment unit holders of Finext Real Estate Opportunities Budapest SICAV-SIF Sub-Fund redeemed their $P$ shares in 2022, therefore the Group is the only owner of the subfund at prior year end and at the reporting period.

The fund issued three investment unit classes. Class 'AT' and 'AH' units are held by the Group, class ' P ' was distributed to non-controlling investors. The three classes provide different controlling rights and risk/return schemes - all controlling rights regarding the development (underlying asset) are linked to 'AT' and 'AH' units. Repayment of the original investments and distribution of P\&L are as follows:

- If the fund is profitable, exceeding the maximum return of Class ' $P$ ' investors - original investments of Class ' $P$ ' and its maximum return shall be paid out first, then Class 'AH' units receive the remaining capital of the fund.
- If the fund is profitable, but the cumulated return is less than the maximum return of Class ' $P$ ' investors - original investments of Class ' $P$ ' and its return shall be paid out first, then Class 'AH' units receive the remaining capital of the fund. (Initial investment)
- Potential losses are suffered pro-rata, based on the invested capital.

The non-controlling investment unit holders of Cordia Residential Partners 1. Alapok Alapja Részalap partially redeemed their P shares in 2022 and the remaining part in the first half of 2023. Therefore the Group is the only owner of the subfund at the reporting period.

Under both schemes the Group does not provide any guarantee for the return on the capital invested by the non-controlling investment unit holders. Should the projects in the fund generate losses, the losses are shared between the Group and the non-controlling investment unit holders on a pro-rata basis up to the amount of the capital invested. Each parties' liability is limited to the amount of capital invested in the fund.

The Group has no unconditional obligation to pay back any amount invested by non-controlling investment unit holders, however - after the completion of any project in the fund - the generated free cash shall be returned to the investors and the Group has no sole right to decide about potential reinvestments into potential new projects. Therefore the Management believes that presenting these balances among general liabilities or among the Group equity would be misleading and it would not provide a fair view of the financial position of the Group. Based on the above, and based on the industry practice, net asset attributable to non-controlling investment unit holders are disclosed on a separate line in the consolidated statement of financial position.

At each period end, the Group calculates the profit distribution to be paid out on finished projects to non-controlling investment unit holders and presents the balance among net assets attributable to non-controlling investment unit holders.

## 31. Segment report

## Segment information

The Board of Directors is the Group's chief operating decision-making body. The Group's operating segments are defined as separate entities developing particular residential projects, which were aggregated for reporting purposes. The aggregation for reporting purposes is based on geographical locations.

The Board of Directors considers the business from a geographic perspective. Geographically, management looks into the performance in Hungary, Poland, Spain, Romania and in the United Kingdom. The segments derive their revenue primarily from the sales of residential properties to individual customers. According to the assessment of the Board of Directors, the operating segments identified have similar economic characteristics.

The Board of Directors monitors the budgeted and forecast financial results of the operating segments for the purpose of making decisions about resource allocation and performance assessment.

## Revenue

The management believes, that revenue is currently not the most descriptive factor, since the projects are mostly in the development phase. There are no significant sales transactions between the segments. The revenue from external parties reported to the strategic steering committee is measured in a manner consistent with that in the income statement.
